1. Conflicts of Interest

A conflict of interest occurs where an individual's ability to exercise judgement or act in one role is or could be impaired or otherwise influenced by his or her involvement in another role or relationship. The individual does not need to exploit his or her position or obtain an actual benefit, financial or otherwise. A potential for competing interests and/or a perception of impaired judgement or undue influence can also be a conflict of interest.

Are there any potential conflicts of interest relating to this paper, which may arise within the committee and need to be addressed by the Chair of the Committee prior to this item being tabled?

Yes No

If yes, please detail here the action taken by the Chief Operating and Finance Officer to prevent conflicts of interest within the decision making process
